24 Precincts in Lawndale Area

The Board of Supervisors has established 24 precincts in the new City of Lawndale on recommendation of County Registrar of Voters Benjamin S. Hite. Establishment of the new city made it necessary for the Registrar of Voters change the designation and numbers of already existing County precincts in the Lawndale area into Lawndale City precincts. This was done by changing existing precincts to coincide with City boundary lines and in some cases by the consolidation and realignment of precincts immediately adjoining Lawndale.

Valentine Ball to Be Given by Hospital Group

The Torrance Memorial Hospital Auxiliary will sponsor its ninth annual Valentine Ball Feb. 13.

The event will take place in the Starlight ballroom of the Thunderbird Hotel, El Segundo, according to Mrs. H. F. Heinlein, ball chairman.

Cocktails will be served at 7:30 p.m.; dinner at 8 p.m., followed by dancing.

Bed and silver decorations in a valentine motif are being planned by Mrs. Carl Larkin.

Mrs. Leroy Pulliam is chairman of the treasure chest. Her committee comprises Mmes. John Popovich, John Bruno, and Wilford Woolf.

Proceeds from the function will benefit auxiliary philanthropies at the hospital.

Pupils to Hear Data on Tobacco

The Board of Supervisors this week requested the County Superintendent of Schools and the County Board of Education to study the latest report of the United States Public Health Service which links excessive tobacco smoking to lung cancer and to work out an educational program in cooperation with the Los Angeles County Medical Association to inform all school children of the dangers of excessive smoking.

The action was taken on motion of Supervisor Kenneth Hahn, who declared that students in all the schools of Los Angeles County should be informed of the facts in the Public Health Service report.

"There should be developed a sound, scientific, educational program so that all school children will be informed of the danger of the excessive use of tobacco in relation to lung cancer, throat cancer and other potential diseases and disorders," he declared.

Supervisor Hahn pointed out that whenever a Public Health Service report on the danger of smoking tobacco is issued, medical doctors in the employ of cigarette manufacturers immediately issue statements trying to discredit the finding of the Federal agency.

"School children should be given the facts on this problem in an objective, scientific manner from the best source available, which is the report of the United States Public Health Service," he continued.
